

Our Environmental Statement

We care about the environment too

Like you, we care about the environment, that's why we're committed to good corporate citizenship and being as green as we possibly can

- **We offer a range of products that are mass produced in a process that's geared towards minimising waste and our products are all lightweight, reusable and recyclable in order to reduce their impact on the environment**

- **We recycle unavoidable waste materials whenever possible**
 - **Shredded office paper is used for in-house packing**
 - **Cardboard and plastic packaging is recycled**
 - **Scrap aluminium is recycled**

- **Our marketing strategy is based on none paper based communication and we only send invoices and statements electronically in order to reduce our paper consumption too**

- **We are striving to reducing the impact of travel & transport on the environment**
 - **Our vehicles are driven by modern environmentally powered engines**
 - **Our transport companies are increasing the use of vehicles that meet the Euro 5 emissions standard and are trailing the use of eco-friendly bio diesel fuel and electric vehicles too**

- **We maximise the efficient use of water and energy and prevent any kind of pollution whenever possible**

It's not always easy being green, but with our environmental policy and commitment to the environment we're doing our bit to be as green as possible
